# Tobacco Stocks Report

## as of July 1, 1971

U. S. DEPARTMENT OF AGRICULTURE  
CONSUMER AND MARKETING SERVICE  
TOBACCO DIVISION

The Tobacco Stocks and Standards Act provides for a quarterly report of tobacco stocks. These reports, based on information filed by manufacturers, dealers, and others, are prepared by the Tobacco Division of the Consumer and Marketing Service.

## BRIEF CLASSIFICATION OF LEAF TOBACCO

(Covering classes and types)

### CLASS 1, FLUE-CURED TYPES

- Type 11: Old Belt flue-cured; produced principally in the Piedmont sections of Virginia and North Carolina.
- Type 12: Eastern North Carolina flue-cured; produced principally in the coastal sections of North Carolina, north of the South River.
- Type 13: South Carolina flue-cured; produced principally in the coastal sections of South Carolina, the southeastern counties of North Carolina, south of the South River.
- Type 14: Georgia and Florida flue-cured; produced principally in southern Georgia and northern Florida.

### CLASS 2, FIRE-CURED TYPES

- Type 21: Virginia fire-cured; produced in the Piedmont and mountain sections of Virginia.
- Type 22: Tennessee-Kentucky fire-cured, eastern district, Clarksville, Springfield, and Hopkinsville; produced principally in a section east of the Tennessee River, in southern Kentucky and northern Tennessee.
- Type 23: Kentucky-Tennessee fire-cured, western district, Mayfield, and Murray; produced principally in a section between the Tennessee, Ohio, and Mississippi rivers in western Kentucky and northwestern Tennessee.

### CLASS 3, AIR-CURED TYPES

#### LIGHT AIR-CURED (CLASS 3a)

- Type 31: Burley; produced principally in Kentucky, Tennessee, Ohio, Indiana, West Virginia, Virginia, North Carolina, and Missouri.
- Type 32: Southern Maryland; produced principally in five counties of southern Maryland--Prince Georges, Anne Arundel, Calvert, Charles, and St. Marys.

#### DARK AIR-CURED (CLASS 3b)

- Type 35: One Sucker; produced in north-central Tennessee and south-central Kentucky.
- Type 36: Green River; produced in the northern part of Kentucky in the territory adjacent to Owensboro and Henderson.
- Type 37: Virginia sun-cured; produced principally in central Virginia, north of the James River.

### CLASS 4, CIGAR-FILLER TYPES

- Type 41: Pennsylvania Seedleaf; produced principally in Lancaster County, Pa., and the adjoining counties.
- Type 42-44: Ohio filler; produced principally in the Miami Valley section of Ohio and extending into Indiana.
- Type 46: Puerto Rican sun-grown, including primed (Deshojado) and stalk-cut (Mata); produced on the Island of Puerto Rico

### CLASS 5, CIGAR-BINDER TYPES

- Type 51: Connecticut Broadleaf; produced in the Connecticut Valley sections of Connecticut and Massachusetts.
- Type 52: Connecticut Havana Seed; produced in the Connecticut and Housatonic Valley sections of Connecticut and Massachusetts.
- Type 53: New York and Pennsylvania Havana Seed; produced in the Big Flats and Onondaga sections of New York, and extending into Pennsylvania.
- Type 54: Southern Wisconsin; produced in Wisconsin, south and east of the Wisconsin River.
- Type 55: Northern Wisconsin; produced in Wisconsin, north and west of the Wisconsin River, and in eastern Minnesota.

### CLASS 6, CIGAR-WRAPPER TYPES

- Type 61: Connecticut Shade; produced in the Connecticut Valley sections of Connecticut and Massachusetts.
- Type 62: Georgia and Florida Shade; produced in southwestern Georgia and north-central Florida.

### MISCELLANEOUS TYPES OF DOMESTIC TOBACCO

- Type 72: Louisiana Perique.
- Type 73: All domestic types of tobacco not otherwise classified.

### FOREIGN TYPES

- Type 81: Cuba
- Type 82: Indonesia
- Type 83: Philippine Islands
- Type 84: Brazil
- Type 85: Colombia
- Type 86: Dominican Republic
- Type 87: Paraguay
- Type 88: Mexico
- Type 89: Other foreign-grown cigar leaf
- Type 91: Foreign-grown Oriental and Aromatic
- Type 92: Foreign-grown flue-cured
- Type 93: Foreign-grown burley

- - - - -

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total leaf tobacco stocks smaller than a year ago

Leaf tobacco inventories of dealers and manufacturers in the United States and Puerto Rico totaled 4,369 million pounds as of July 1, 1971. This was 50 million pounds less than the figure a year earlier. An increase in flue-cured inventories partially offset declines in other domestic types, especially cigar filler. Stocks of foreign-grown cigarette and smoking tobacco were also lower. About 35 million pounds, consisting mostly of Maryland and Puerto Rican tobaccos were marketed by growers during the April-June quarter.

Stocks as of July 1, 1971 included 1,262 million pounds (farm-sales-weight) of leaf tobacco under Government loans--14 million pounds above the previous July 1. Flue-cured accounted for the biggest share of the increase. The breakdown on current loan stocks was: flue-cured, 761.9 million pounds; burley, 468.8 million; fire-cured, 8.0 million; dark air-cured, 15.2 million; and cigar leaf, 8.6 million pounds.

---

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks. (See table in body of report for reported weight basis). This report is issued quarterly.

2/ All Government loan stocks are reported by Growers Cooperatives, which are considered dealers for stocks-reporting purposes.

## CIGARETTE-LEAF STOCKS

### Flue-cured inventories larger, all others decline

Stocks of flue-cured tobacco on July 1, 1971, totaled 1,976 million pounds--23 million above reported holdings last year. The 1970 marketing year for flue-cured ended on July 1 with total disappearance indicated at 1,154 million pounds. Domestic consumption at 623 million pounds was about 42 million below the previous year. Exports were 531 million pounds compared to 535 in 1969-70.

Burley stocks this July 1 were reported at 1,488 million pounds--8 million below the holdings of July 1, 1970.

Maryland inventories totaled 63 million pounds--7 million less than July 1. Auction sales of the 1970 crop ended on June 25 with 29.2 million pounds being sold.

Foreign-grown cigarette and smoking tobacco stocks were reported at 400 million pounds on July 1, 1971. This was 28 million less than was on hand a year earlier.

## DARK TOBACCO STOCKS

### All types decline

Stocks of fire-cured leaf, reported at 78 million pounds on July 1, 1971, were 6 million below holdings on the previous July 1. Fire-cured stocks on this July 1 were as follows: Virginia, 11.2 million pounds; Eastern District Kentucky and Tennessee, 56.1 million; and Western District, 10.9 million.

Dark air-cured holdings of 56.4 million pounds were 5.9 million below the July 1 inventories last year. Stocks this year by types were: One Sucker, 33.5 million pounds; Green River, 19.5 million; and Virginia sun-cured, 3.4 million.

## CIGAR LEAF STOCKS

### Domestic and foreign-grown stocks decline

Inventories of all domestic-grown cigar tobacco, including Puerto Rican, totaled 198.2 million pounds on July 1, 1971. This was 15.7 million less than the holdings of last July 1. Connecticut shade and Southern Wisconsin had larger inventories while all other types declined. Deliveries of the 1970-71 crop of Puerto Rican tobacco were completed during the quarter. Stocks of foreign-grown cigar leaf as of July 1 amounted to 102.4 million pounds--2.4 million below holdings of a year earlier.

## CIGAR LEAF STOCKS--Cont'd.

Inventories of cigar-filler types on this reporting date totaled 125.9 million pounds--down 17.5 million from the previous July 1. Individual type totals were: Pennsylvania Seed-leaf, 98.8 million; Ohio filler, 8.8 million; and Puerto Rican, 18.4 million pounds.

Cigar binder stocks totaled 50.3 million pounds on July 1, 1970--a small gain of 1.2 million from the same date last year. Stocks by types were: Connecticut Broadleaf, 4.7 million pounds; Connecticut Valley Havana Seed, 3.0 million; Southern Wisconsin, 21.5 million, and Northern Wisconsin, 21.0 million pounds.

Shade-grown cigar wrapper stocks as of July 1, 1971, totaled 22.0 million pounds consisting of 13.9 million pounds of Connecticut Valley Shade and 8.1 million pounds of Georgia-Florida Shade. The Connecticut leaf showed an increase while Georgia-Florida declined. The marketing year which ended on July 1 indicated a total combined disappearance of 14.3 million pounds for these types. Exports were 1.9 million pounds giving a domestic disappearance of 12.4 million. Disappearance was about the same as last year in both types.

Stocks of Cuban leaf, reported at 0.7 million pounds dropped 0.3 million from a year ago. Philippine Island stocks were down 4.4 million pounds at 38.7 million. Indonesian leaf stocks this July 1 were 4.7 million pounds; Brazilian, 9.4 million; Colombian, 10.4 million; Dominican Republic, 13.5 million; Paraguay, 7.3 million; Mexico, 5.3 million; and other foreign-grown, 12.4 million pounds.

## TOBACCO SHEET

### Leaf in sheet declines

Stocks of leaf represented in inventories of "tobacco sheet" totaled 32.0 million pounds (reported weight) compared with 35.1 million a year earlier. Of the total in "sheet" this July 1, 30.2 million pounds were for use in cigarette and smoking tobacco, and 1.8 million for cigar binder and wrapper.

TABLE 1.--Factors for adjusting stocks reported by dealers and manufacturers to a farm-sales-weight equivalent, by types of tobacco

AUCTION MARKET AREAS (Types 11-37) 1/

Type name	Type number	Factors to multiply by to convert -		
		Stemmed stocks to -		Unstemmed stocks to -
		Unstemmed equivalent	Farm-sales weight equivalent	Farm-sales-weight equivalent
				From packed weight 1/
Flue-cured . . . . .	11-14	1.295	1.450	1.12
Virginia fire-cured . . . . .	21	1.299	1.598	1.23

Foreign-grown burley . . . . .	93	1.345	1.506	1.12

1/ Types 11-37 are reported on the basis of packed weight.

2/ Farm-sales-weight equivalent based on unstemmed sweated weight factor.

3/ The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales-weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.

TABLE 2.--Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent, July 1, 1971, compared with other quarters 1/

# FARM-SALES WEIGHT

1/ Totals include stocks of leaf tobacco sheet. See separate reporting in table 4.

2/ Type 73 is defined as all domestic types of tobacco not otherwise classified; the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the types to which they properly belong.

3/ In previous quarters these tobaccos were grouped together and designated type 90. The increasing volume of imported flue-cured and burley leaf made separate reporting necessary.

TABLE 3.--Production, stocks, supply, disappearance on a farm-sales-weight basis, and price of specified types, 1962-71 <sup>1/</sup>

<sup>1/</sup> Annual disappearance for a type is calculated for the marketing year established for that type, the year beginning on the quarterly reporting date on which stocks of the type are at their lowest point and before the new crop enters stocks.

<sup>2/</sup> The carryover stocks have been tabulated separately according to broad groupings of ownership, namely manufacturers, under loan, and all other. "Other" reflects stocks reported by tobacco dealers and stocks held in the United States by representatives of foreign manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export.

<sup>3/</sup> Subject to revision.

<sup>4/</sup> August 1 estimate, U. S. Crop Reporting Board, SRS.

Detail may not add to total because of rounding.

TABLE 4.--Summary of tobacco leaf represented in inventories of tobacco sheet, for cigar binder and wrapper, and for cigarettes (including smoking tobacco), separately

1/ Total includes stocks of leaf reported in tobacco sheet. See separate reportings in table 4.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

3/ This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers represent domestic manufacturers only. All Government loan stocks are included as dealers' holdings.

4/ Includes stocks on the Island of Puerto Rico.

5/ For explanation of stocks included in this classification see footnote 2 on page 7.

6/ In previous quarters these tobaccos were grouped together and designated type 90. The increasing volume of imported flue-cured and burley leaf made separate reporting necessary.

\*Revision.

Total imported cigarette and smoking tobacco leaf	91-93	346,043	12,985	359,028	386,483	347,227	346,747
Total all types	11-93	1,799,983	1,607,491	3,407,474	3,470,792	3,696,262	3,890,271

1/ Totals include stocks of leaf reported in tobacco sheet. See separate reporting in table 4.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1970, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress.

3/ Subject to revision.

4/ For explanation of stocks included in this classification see footnote 2 on page 7.

5/ In previous quarters these tobaccos were grouped together and designated type 90. The increasing volume of imported flue-cured and burley leaf made separate reporting necessary.

\*Revision.
